

Filmoprint floor & wall

Description

This is a 180-micron white pvc film coated with a permanent pressure sensitive adhesive. Floor graphics are excellent for advertising in supermarkets, toy stores, restaurants, theaters, and other high-traffic areas where p.o.p. floor displays are optimal. Ideal for use with Eco-Solvent, Solvent, UV-Based, and Latex inkjet printers. These films are also available for Screen Printing, and can be top-coated for improved ink adhesion for printing methods such as Offset, Litho, Flexographic and UV printing.

- Milky white flexible PVC vinyl
- Interior and Exterior floor and wall applications
- Easy installation, Various applications
- Suit for printing industry
- Film:180 micron Clear Calendered
- Adhesive: High grade strong permanent clear acrylic PSA
- Liner: One- side PE-coated white wood-pulp paper,140gsm
- Outdoor life:12 months
- PVC Vinyl High glossy white monomeric calendered removable self-adhesive, digital printable film designed to meet a variety of short-term graphic needs, such as promotion and outdoor advertising.

Applications and Uses

- Retail Setting
- Public Exhibit
- Environmental Design
- Irregular Surfaces

General Features

Caliper, face film	GB/T6672	180 micron
Caliper, liner	GB/T6672	140 gsm
Dimensional stability	DIN 30646	0.8 mm max
Adhesion, initial	FINAT FTM-1, stainless steel	15 N/in
Adhesion, ultimate	FINAT FTM-1, stainless steel	20 N/in
Flammability		Self extinguishing
Shelflife	Stored at 2°C/50-55% RH	12 months
Durability	Indoor usage	12 months

Thermal

Application temperature	Minimum: 10°C
Temperature range	-20 °C + 60°C

Chemical

- Resistant to most petroleum based oil, greases and aliphatic solvents
- Resistant to most mild acids, alkalies, and salts
